SKILLS

- Project Management
- Web Development
- Machine Learning
- Java, C, Python
- Flask Framework
- React, Express
- Git, BaaS

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Spanish (Basic)

PROFILE

Computer Science student with a strong foundation in programming, web development, and machine learning. Skilled in Python, Java, C, React and Flask with hands-on experience in building innovative projects. Eager to apply technical expertise to contribute to dynamic software solutions and grow as a professional.

PROJECT

Redact Tool

Python, Flask, Machine Learning, Deep Learning

Made a hyper robust tool that takes docx or pdf files as input and detects and redacts all sensitive content (textual or image) without human intervention.

Shell Web Viewer

Python, Shell script

A virtual web browser that can be launched from any CLI terminal without application installation.

Chrome Extension

JavaScript

An AI based chrome extension that takes the last pushed text content from your clipboard to communicate with AI. Virtually making any text field on any website a chat box without any popups.

Signature Detection Model

Python, Deep Learning

Trained a deep learning model and hand curated dataset, making it capable of detecting signature on almost all images and backgrounds.

Guess-Ask Game

HTML, CSS, JavaScript, React

Deployed an AI based game.

EDUCATION

Intermediate

2021-2022

RLS Convent Senior Secondary School | Sultanpur (UP)

GPA: 8.8 / 10

Bachelor of Technology in CSE (Data Science)

2023-2027

Vellore Institute of Technology

GPA: 8.5 / 10
